PROFILE

Frontend Developer with 3+ years of experience building production-grade web applications using React, Next.js, and TypeScript. Experienced in developing scalable, maintainable UI architectures, integrating REST APIs, and collaborating with cross-functional teams. Strong focus on performance, code quality, and user experience.

KEY SKILLS

- **Frontend Technologies:** Micro-frontend, React, Next.js, TypeScript, JavaScript, HTML, CSS, TailwindCSS, Material UI, Storybook, basic Angular, basic Vue
- **State Management:** Redux, Context API, Zustand
- **Mobile:** React Native, basic Flutter experience
- **Tools & Workflow:** Git, GitHub, BitBucket, VS Code, Figma, REST API integration, Jira, Trello
- **Soft Skills:** Cross-team collaboration, problem-solving, code review

EXPERIENCE

Full-time Front-end Developer at PT. Tiga Daya Digital Indonesia (January 2025 – Now)

- Developed and maintained a large-scale online auction platform for JBA Indonesia (<https://lelang.jba.co.id/>) using React, Next.js, TypeScript, Web socket, TailwindCSS, and Zustand.
- Built reusable, responsive, and performance-optimized UI components to support high user traffic.
- Developed VISION, an admin dashboard with micro-frontend architecture featuring complex data tables, real-time data handling, and full CRUD operations. Create and document modular components using Storybook.
- Integrated REST APIs, implemented efficient data fetching, caching, and error handling strategies.
- Improved frontend architecture to ensure scalability, maintainability, and alignment with business requirements.

Full-time Front-end Developer at PT. Bukit Vista Nusantara (August 2023 – August 2024)

- Designed and developed web application interfaces using React, Redux, Context API, Material UI, and TailwindCSS.
- Improved application performance and stability by fixing critical bugs and optimizing rendering logic.
- Conducted code reviews and supervised interns to maintain code quality and best practices.
- Deployed features to production and collaborated closely with backend, design, and product teams.
- Developed custom features on WordPress websites using PHP.
- Contributed to a small mobile application project using Flutter.

Part-time Front-end Developer at PT. Bukit Vista Nusantara (July 2022 – August 2023)

Responsible for creating User Interface on the web app using React, Redux, Material UI, and Tailwind CSS. Maintaining BIGRR and Guest Portal apps. Solving many errors and bugs that occur on the web app.

EDUCATION

Diponegoro University (August 2019 – August 2023)

Engineer's Degree, Computer Engineering – GPA: 3.88/4.00

CERTIFICATION

- CCNA: Introduction to Networks from Cisco
- Progate: HTML & CSS Course, JavaScript Course, React Course
